Chair Compton advised that the Board members have been actively meeting with students, faculty, staff, legislature, alumni, and the community at large. He stated that, due to this outreach and other activities, that there are tangible positive results, including improve relationships with the state legislature, increased alumni engagement and giving, and an increase in the number of students who are enrolling.

Chair Compton said that, singularly, the most important and best accomplishment of the Board during the year was the appointment of Randy Boyd to serve as Interim President. The Chair
expressed his view that there are some decisions that really make a difference and his belief that it will be one of the decisions that will be remembered years from now as a success. He also commented that, with the selection of Chancellor Plowman, all of the Chancellor positions are now filled and one that he would put up against anyone in the country. He thanked Interim President Boyd for his efforts in this regard, along with the work that is being done by Interim President Boyd to improve the integration and collaboration across the campuses and the system.

Additionally, Chair Compton spoke of the Board’s efforts to increase transparency, improve the process for addressing the Board, and to listen and meet with stakeholders. He briefly provided a brief update on the UT Foundation and the endowment, along with the UTC Foundation and its endowment. He shared that, while he is pleased to see the increased level of giving to the University, the increase in the number of donors is even more important. People are emotionally connecting to the University, and that connection is critical to the success and welfare of the University. Chair Compton also indicated that he believes the extension of the Tennessee Promise through the creation of the UT Promise was a brilliant idea. It was a bold move on one that addresses access and affordability, which will allow qualified students to consider and attend a UT campus. He noted that the Board held tuition at a rate equal to or below the rate of inflation and referenced the progress made by the Special Committee on Athletics, chaired by Mr. Charlie Anderson.

In looking forward, Chair Compton stated that the Board would need to revisit the interim president title given to Mr. Boyd. Various stakeholder groups have expressed support of Interim President Boyd’s performance. However, to formally measure his performance, the Chair explained that he will be conducting a formal performance appraisal of Interim President Boyd, which will be presented to the Board. The review will include hard and soft metrics, as well as feedback from key stakeholders. Following the review, the Board will then consider next steps. V. President’s Address

Interim President Boyd discussed the University’s rise in national rankings (U.S. News and World Report), but shared his concerns as to certain measures employed in the rankings, namely – selectivity. He said that selectivity is also a measure of who you choose to exclude. In this regard, the University will measure its success, not by who is excluded, but by who is included. He continued his remarks by stating that UT Promise gives the University the opportunity to provide greater access to more Tennesseans. He reviewed the specific details of the program, along with a number of positive outcomes expected due to the UT Promise program, including increased retention due to reducing the financial demands placed on students and families.
